Morning Dwayne,

I apologize for not getting back to you sooner. I have had some minor difficulties in retrieving messages from my phone. I am attaching two different document sets to assist your team in deciding if an exceptional event is appropriate and how to notify EPA Region 6 of your intention to submit an exception event and the time table of steps. The biggest item will be if the events in question have regulatory significance. Meaning will they affect your design value and put you out of attainment. I would advise your PM leads to look carefully at this portion because we will only act if it has regulatory significance. Please let me know if I can help you in any other way.

Josh

Hello Josh,

The City of Albuquerque may have experienced possible PM-10 exception events, 1 event in September 2020 and two in October 2020. Can you please provide information on the Formal Notification procedure and when these notices should be submitted by the City of Albuquerque to EPA? Due to the Covid-19 pandemic, we would appreciate as much time as permissible to submit the Formal Notifications. This is a follow up to voice message I left on December 2, 2020.

Thank you,

DWAYNE SALISBURY
